**Subject:** Pristine, Inc. Site - Duke Energy Proposed Pipeline  
**Attachments:** Pristine extraction wells and piping locations.pdf

Hello Jeanne. Earlier this week I received a phone call regarding some digging/drilling that Duke Energy or a contractor had conducted recently near the Pristine, Inc. site in Reading, Ohio. I just wanted to inform that Pristine, Inc. has some buried lines along West Street in Reading that Ohio Utilities Protection Services (OUPS) and Duke may be unaware of. I have attached a figure that shows the general approximate location of the buried lines, which are in the path of one of the proposed pipeline routes and could potentially be damaged. Could you please forward this information to the appropriate person(s) at Duke Energy, or provide me contact information?

The contact for Pristine, Inc. is Henry Cooke, (513) 285-1107. Henry can provide more information on the buried lines.

Thank you.

-Scott
